dated the 3rd from the Secretary to Government, General Department -
I is learnt that for an expenditure of the above estimate could not be
met from the Public Works Department Budget Grant for the Provincial Irrigation
Department. The Secretary to Government has therefore requested the Chief Engineer
to request the Government to sanction the construction of the Reservoir without disturbing the
Public Works Budget Grant for the Provincial Irrigation Department and the said
estimate be sanctioned by the Government of India.

In the Public Works Department Budget Grant for the year 1920-21 the
estimate for the construction of the Reservoir has been included and if the
construction of the Reservoir is sanctioned by the Government of India
the Public Works Department Budget Grant for the year 1920-21 will be
reduced by the amount of the estimate for the construction of the Reservoir.

I am therefore requesting you to kindly move the Government of India

Letter No.AF.I.C.899/36-37 dated 18th June 1936 from the Deputy Commissioner, Chitaldrug District to the Mukrai Commissioner in Mysore.

I have the honor to state that it is found from the references of this office that an estimate for Rs.4350/- for constructing Ranganatha swamy temple at Devinakatti in Hosadurga Taluk had been submitted to your office for sanction in this office No.C.C.1062/31-32 so far back as 6th January 1935, and that it is still pending orders. On a subsequent reference made to the Sub Division Officer, Davangere, however, it is ascertained that there is no need to shift the existing temple to any other place as the Vani Vilasa Sagara even when full, does not interfere with the temple and cause any damage to the building.

In these circumstances, I request that the records referred to above, may kindly be returned for being filed.

Dated Bangalore, 22nd March *192* 3.

Dear Sir,

In reply to your D.O. No.2523/Muz.399-13 dated 21st March 1923 in re the Bevinhalli Temple in the ---- Marikanave Lake, I write to inform you that I inspected the temple last month and decidod what was to be done and now await the estimate from the Executive Engineor. Several of the signatories to this petition were present at the time of inspection and agreed to my proposals. The floor of the temple is identical in olevation with F.S.L. of the Lake, but the platform in front of the temple is lower. The approach road to the temple is also several feet below F.S.L. The platform will ---- therefore be raised to F.S.L. and a new road cut at tho required elevation. These works will cost about ----- Rs 3,000/-. The revetment which holds up the platform is sound-
